

Chatbot Instrument

Please complete the survey below.

Thank you!

Dear Respondent,

I'm Poornima, pursuing PhD from Christ University, Bangalore. As part of my research, I am currently working on my project to understand the service quality of banks' chatbot services and the influencing factors of service quality on different variables. I request you to kindly fill out the form by completing the following questionnaire. This survey contains only 54 questions spread into 3 pages which are multiple choice questions. It would take 5-8 minutes to complete this survey. Your answers would be extremely helpful for me to carry out my research.

Your 5-8 minutes means a lot to us :).

Note: The response would be anonymous, would keep it confidential and use it for research purposes only.

Thank you for your time
